

Our Patient Reviews

We are truly grateful for the care, support and delivery of our baby girl. Without Mr Rehal at MUMS we would not have enjoyed such attention to detail throughout my pregnancy. The care provided was world class. We would not hesitate to return to MUMS and in particular Mr Rehal.

My previous pregnancy was complicated and therefore I was extremely anxious and did not want to return to the NHS for future pregnancy care. I found MUMS to be the only private delivery clinic in the UK outside of London. Although I don't live local to the Midlands after an initial consultation with Anoop at MUMS I was convinced and reassured. The caesarean section was well planned and stress free. My recovery has been so much better than last time allowing me to focus on our new baby.

The care at MUMS is second to none.

The pre-natal care was amazing.

The consultations were not rushed and I had quality time with my consultant.

Mr Rehal and his staff make you feel like royalty. Nothing is too much trouble. Donna his co-ordinator was in regular contact and always accessible. When it came to the delivery Anoop and Midwife Lara were with me the whole way. I would definitely recommend the team at MUMS for anyone wanting a private delivery and or/private antenatal care.

Trusted Excellence in Private Healthcare

Outside of London, Midlands Ultrasound and Medical Services (MUMS), is the only provider of private births in the UK.

As a MUMS private delivery patient you have easy contact with Mr Anoop Rehal and his dedicated midwives. The service is bespoke, tailored and personalised.

We are proud to have Mr Anoop Rehal, Fetal Medicine Consultant at MUMS, who trained at Kings College Hospital and is highly experienced in caring for low and high risk pregnancies. He is the lead clinician on the labour ward at Good Hope Hospital Birmingham and he is the lead clinician for multiple pregnancies.

His special interests include high-risk pregnancies, multiple pregnancy, and managing medical disorders in pregnancy.

He provides private antenatal care and private deliveries at MUMS. Anoop and the team are fully committed to providing a caring and safe experience for you and your baby, tailored according to your needs.

During the antenatal period you will be seen regularly at MUMS for detailed ultrasound scans and comprehensive consultations.

You will also have midwifery consultations, focusing on pregnancy health promotion, education and baby care.

We only perform planned deliveries – namely, Caesarean Section and Induction of Labour. During the delivery process we use the NHS facilities at Birmingham Heartlands Hospital and Good Hope Hospital with the support of the hospital staff. Our private midwife and Mr Rehal will be constantly present during labour. Mr Rehal, whom you will have built a relationship with during your appointments at MUMS, will deliver the baby.

What are the advantages of using MUMS?

Most of the time the NHS provides good care during pregnancy and delivery. However, sometimes the care cannot fully facilitate or meet your requirements. These requirements may be to have a Consultant you know and trust delivering your baby or facilitating your chosen form of planned delivery. You will have full 24-hour access, 7 days a week to Anoop to discuss concerns or worries no matter how small they may appear.

What is the cost?

The cost of the Private Delivery is £17,000. Monthly private scans and consultations during your pregnancy cost £400. Blood tests and swabs are chargeable separately. Alternatively, you may choose to purchase our package of antenatal and postnatal care which costs £5,500 and includes all the necessary blood tests, scans and consultations.

You and your baby remain entitled to NHS care even in cases where there is a need for intensive or high dependency care.

What is the accommodation at the hospital?

We aim to give you your own room with private bathroom facilities. On rare occasions this may not be possible due to the unpredictability of NHS emergencies.

How do I arrange an appointment?

If you wish to discuss private care, please contact Donna at the Practice on 0121 704 2669 or email: donna@mums.me.uk
NO REFERRAL IS NECESSARY FROM YOUR GP.

We can liaise with all your NHS providers to inform them of your choice if you so wish. You are encouraged to maintain contact with your NHS community midwife.
